

PET DOCTORS ST LUKES

Exotics, Wildlife & Companion Animal
Vet Nurse
Full-time

If you are a veterinary nurse who is comfortable working with cats and dogs and would like to also develop or showcase your skillset with exotics and wildlife, we would love to hear from you!

What will you be doing at our clinic:

In this role, you will be the key nurse for our cat & dog clients and you will also be caring for a variety of exotic animals and wildlife species. If you do not have previous experience with exotics, all you need is an interest to learn and we will help you develop your skillset further! Of course, any previous experience would be beneficial – but the key is to have an interest in the field!

In addition, the role will cover reception on a rotating basis, which gives you the opportunity to interact with our clients in a different setting.

The role is a full-time position, working 40 hours per week. Our clinic is open 7 days, so there will be rotating weekend shifts, but these will be approximately 3-4 days per month.

A bit about you:

You are a qualified veterinary nurse who is confident working with cats & dogs and you are keen to learn about exotics and wildlife, or are able to demonstrate your skillset! You are able to work a 40-hour week, with intermittent weekend work, and are passionate about providing the highest standard of care to our patients.

You enjoy working in an environment where you will be exposed to a variety of species and understand the importance of collaboration and teamwork when it comes to patient care.

What we can offer you:

As a part of our team, you will:

- Get the opportunity to grow and learn and we encourage your progression with our CPD policy for nurses.
- You will have access to our staff benefits for you, your family and friends.
- You will have access to discounted health insurance for your own health, and this will be free health insurance for you, after spending some time working with us.
- We will offer you a competitive rate and the utmost support in your role.

A bit about our clinic: Pet Doctors St Lukes

We cater to all companion pet species, including cats, dogs, and everything in-between! We are both a companion animal and exotics practice, and our team is dedicated to providing a high standard of care. Between our 5 vets, 6 nurses, 4 animal care attendants and a dedicated client relations, we are able to cater for the specialised medical and surgical needs of birds including backyard chickens, lizards, turtles & tortoises, rabbits, guinea pigs, chinchillas, rats, mice, and cats and dogs. Our purpose built clinic and dedicated team also offer boarding facilities for the exotic pets and a cattery. We are located in an area with plenty of parking and near a variety of shops (as well as the St Lukes mall). We are open 7 days, as we are one of the few clinics in Auckland with special facilities to care for a variety of species.

We are a part of the Pet Doctors' group, who are dedicated to growing and developing New Zealand's best veterinary teams!

You can be you, with us!

To deliver the best veterinary care in the country, we need the best team – and that's where you come in.
